

# PANEL

# BUILT-IN SOLUTIONS

PANEL is an innovative built-in solution designed to optimise hygiene and functionality in public and commercial restrooms. By seamlessly integrating handwashing and drying into a stylish, space-saving unit, PANEL creates a clean and organized environment that enhances the user experience.

With a mirrored front PANEL ensures a modern and minimalist aesthetic while keeping essential hygiene features discreetly in place. The system is completely touch-free, featuring a built-in sensor-activated hand dryer and soap dispenser or an alternative configuration with a soap dispenser and paper towel dispenser.

Intuitive LED indicators on the mirror provide clear guidance for effortless operation, making PANEL a user-friendly choice for high-traffic locations such as airports, shopping malls, and office buildings. Available in multiple sizes with optional infill panels, PANEL can be customised to fit a wide range of restroom layouts, offering both flexibility and sophistication.

By combining smart design with advanced hygiene technology, PANEL is the perfect solution for those looking to create a modern, efficient, and aesthetically pleasing restroom experience.

There are places where  
people stay for a moment.  
And where the design must  
perform every single second
